

Debbie Diller's Denver Institute 2012

Debbie Diller lives in Houston, TX and has been an educator for 35 years. She is passionate about meeting the needs of *all* students through engaging instruction in whole group, guided support in small group instruction, and independent practice at work stations—in both literacy and numeracy!

Debbie is the author of five best-selling books on literacy (and now math) work stations, classroom organization, and small group instruction from Stenhouse Publishers.

At each institute Debbie shares brand-new presentations filled with organizational tips, research-based ideas, and practical, realistic information you can put into practice immediately!

What did people say about Debbie's other institutes?

"Thank you so much for all you've given me to think about. I can't wait to go back to school and try these ideas tomorrow!"

"You have opened my eyes to what is important to the children and how to involve them in the learning."

"Thank you very much for all your help. I was given your math work stations book recently and cautiously tried some. Now I can't wait to dive in and get working on them!"

"I enjoyed sharing these days with you. They have been great, and I look forward to coming home and starting to use all of these things. The door prizes were great, too."

"I am glad that I was able to attend your two-day conference, as I learned a ton and know that I am doing what is best for my first-graders. Also, thanks for taking time to talk with me afterwards. I greatly appreciate your input."

"I have been to several of your workshops over the years and love that you are always growing and changing."

"I just wanted to thank you again for such a fantastic day. I learned SO much and will use every bit of it in my classroom. I also appreciate your being real. You have not forgotten your teaching roots."

"I appreciate your reminders that I desperately need to slow down and give my students and myself the gift of time and reflection. Thank you for your inspiration."

You Will Learn How To...

- * Help children develop conceptual understandings and academic language for math and literacy
- * Plan and teach whole group and small group lessons that help students develop thinking skills and strengthen vocabulary
- * Connect big ideas to meaningful exploration and practice in math and literacy
- * Set up, manage, and add rigor to standards-based math and literacy stations for meaningful independent work
- * Plan for engaging instruction and practice using what you've already got in your classroom

Site-Based Training Available!

Would you like to have Debbie or one of her associates come to your school or district to work with your teachers?
